

CRANE & RIGGING

At UPS Industrial Services, we go beyond maintenance to deliver full-scope support across every phase of your project.

UPS Industrial Services' crane and rigging services keep your plant operating efficiently, even during outages and turnarounds, with innovative solutions tailored to your requirements.

We employ a full-time staff of crane and rigging supervisors that ensure safe lifts, measured and delivered to specifications with calculated charts and 3D Cad lift plans produced by our team of in-house engineers. Our large inventory of company-owned equipment, including the Hydra Slide 300 jack and slide system, enables the removal and replacement of heavy plant equipment up to 600,000 pounds.
