

FABRICATION

At UPS Industrial Services, we go beyond maintenance to deliver full-scope support across every phase of your project.

With fabrication shops in Deer Park and Corpus Christi, TX, UPS Industrial Services has over 57,000 sq.ft. of space set up to deliver a wide range of fab shop services for piping, vessels and tubes.

Our shops have all NBIC and ASME certifications needed to fabricate your project, along with designated areas to segregate alloys to ensure the highest quality project. Our skilled team has experience working with many types of alloys and is equipped to fill fast-turn fabrication needs.

When combined with our engineering group's dimensional control technology for 'as found' or 'as designed' conditions, we achieve a much higher degree of accuracy than conventional fab shops. When the fabricating is right, your project benefits.
